patented, highly
efficient diffusers*

Affordable and attractive jet system diffusers

Combine the healthful benefits of super fine essential oil mist, oil efficiency, and easy cleaning features

A diffuser is a special device uniquely designed to disperse pure essential oils into the atmosphere. It is the most effective way to finely vaporize essential oils without harming or altering their vital components and valuable properties.

Ultra Jet Diffuser

Hand made ceramic base, includes cobalt blue bottle for essential oils. Quiet, adjustable Rena 200 Air Pump covers 2,000+ sq. ft.

Ultra Jet Diffuser DELUXE

All-in-one oak case stores the Ultra Jet Diffuser with space for three ½ oz. essential oil bottles. Includes the cobalt blue bottle for essential oils, plus pure essential oil combinations of ½ oz. Breathe Easy, Energize, and Nite Cap. Quiet, adjustable Rena 200 Air Pump covers 2,000+ sq. ft.

Rev 12/09

Essential Oil Combinations recommended for diffuser use

EO Blend	Codes	Properties
Alpine	C, P, R	Crisp, cool blend to alleviate heady pressures and stuffiness
Beautiful Gardens	N	Floral medley to soothe away tension & encourage relaxation
Breathe Easy	P, R, U	Clears the air, purifies and cleanses the environment
Clarity	C, P, U	Enhances mental acuity; aids memory; heightens concentration
Composure	S, N	Helps balance emotions and steady mood swings
Energize	C, P, U	Cooly stimulates physical and mental vitality
Fern Creek	P, R, U	Bracing, purifying tonic
Fresh Breeze	P, R, U	Enlivening, expansive, and revivifying
ImmuBoost	C, P, R	Invigorating tonic
Inspiration	P, N	Meditative and grounding essence
Nite Cap	P, N, R	Relaxing, calming; relieves nighttime restlessness
Oasis	C, P, S, N	A retreat from stressful tension, worry, and mental fatigue
Ortho-Flex Original	C, P, R	Fresh, cleansing, clearing.
Refreshers	C, P, R, U	Cool and expansive
Romance	S, N	Sweet, dreamy melange
Serenity	N, S	Tranquil, reassuring harmony
South Seas	S, N	Helps relieve stress and induce peaceful feelings
Sunrise	P, U	Arousing and uplifting

C = Caution: for short term use **P** = Purifying **N** = Nervine/Calmig
R = Respirant **S** = Stress Relief **U** = Uplifting/Refreshing

Superior Diffuser Features

Highly efficient jet nebulizer Our jet nebulizer is the product of over ten years of research and development. It is precision engineered from a special inert material to produce super fine essential oil mist. This virtually indestructible jet will last a lifetime if cared for properly. For your convenience, our new and improved jet will thread directly onto our essential oil combination bottles.

Beveled drop shape Pyrex™ glass piece Our glass piece is made from laboratory grade Pyrex™ glass that is formed and then tempered for strength in an 1800° scientific kiln.

All inert components All of our diffuser components have been carefully researched and selected to preserve the delicate synergy of essential oils. Unlike metal, the special jet material and Pyrex™ glass will not cause oxidation.

Handmade ceramic base or oak case The attractive base is hand made from natural ceramic clay. Our Deluxe model features an oak case and three of our popular essential oil combinations: Breathe Easy, Energize, & Nite-Cap.

A compact and quiet air pump Our diffusers feature a Rena Air 200 pump with adjustable flow control. Rena, France has a reputation for the finest quality air pumps available. All Rena pumps are engineered for years of quiet, trouble-free service. An on/off switch is included at no extra charge.

An easy clean feature In the event that dust, lint, or other debris clogs the jet nebulizer, simply placing your finger over the jet will rapidly dislodge the particle.
