

# PhytoGreen Drink

(Spirulina Plus)

## **ENJOY THIS NEW AND IMPROVED SPIRULINA DRINK**

- *L. ACIDOPHILUS DDS-1,*
- *INULIN, VEGETABLE ENZYMES,*
- *YUCCA EXTRACT,*
- *POTASSIUM AND MAGNESIUM*

### **There are Important Reasons to enjoy PhytoGreen Drink**

- ▶ Reduce inflammation involved in Arthritis
- ▶ Lower cholesterol and triglycerides
- ▶ As a methyl donor it helps lower homocysteine
- ▶ Zeaxanthin promotes eye health
- ▶ *L. acidophilus* helps normalize bacteria in the colon
- ▶ Inulin provides nourishment for the *L. acidophilus*

This super food supplement drink is rich in antioxidants, amino acids, trace minerals and other phytonutrients which contribute to a healthy immune system, increased energy levels and other health benefits.

The Earthrise™ organic Spirulina in this product has a long history of being an outstanding source of Spirulina. Since it is a complete protein with all of the essential amino acids, studies have shown therapeutic effects at very low concentration in the diet. Vegetable enzymes, essential oil of lemon and carrageenan yucca has enhanced these qualities.

### **What Spirulina Does:**

It has been found to reduce the inflammation involved in arthritis by stimulating the secretion of interleukin-2. Spirulina has produced significant changes in cholesterol and blood pressure: it lowers total cholesterol; increases HDL cholesterol; lowers triglycerides; and lowers systolic and diastolic blood pressure. Because of its methyl donors Spirulina is useful for reducing homocysteine levels and aids whenever inflammation or degeneration are a part of a disease process.

### **What about the other ingredients?**

2.5 mg zeaxanthin and 420 mg Phycocyanin promote eye health. Inulin provides nourishment for *L. acidophilus* DDS-1. This is a patented, highly researched and clinically proven strain that helps normalize bacterial in the colon.
