

ImmuPlus

ImmuPlus is a synergistic blend of medicinal mushrooms and herbal extracts to enhance immune system function

The Ingredients:

Our blend of **Cordyceps, Reishi and Maitake** mushrooms offers greater protection by stimulating specific parts of the immune system. In addition, they may have activity against various cancer and tumor cells.

Propolis has a long history of being used to help skin and wound healing. People also use it for bacteria, viral, and fungi infections of the skin.

As stated in our Ultra Elderberry Plus literature, **Elderberry** is approved for virus and cold infections, is effective against HIV and all types of influenza.

Echinacea is popularly used to reduce cold and flu symptoms.

Oregano has been used for centuries and is well known for its immune-boosting properties. It might help reduce coughs and spasms. Oregano also is known to fight against some bacteria, viruses, fungi, intestinal worms, and other parasites

Acerola berries are rich in Vitamin C; the reason for its health benefits
