

Immunease

(A Dietary Supplement from Time Labs)

Consider for:

- inflammation,
- allergies,
- eczema and dermatitis,
- hepatitis, and similar conditions
- autoimmune disease

The herbs have evidence-based properties and work synergistically

1. **Peony:** for more than 1000 years this herb has been used for rheumatoid arthritis, systemic lupus erythematosus, hepatitis, dysmenorrhea, muscle cramping, spasms and fever.
2. **Frankincense** is also known as Boswellia. It affects the immune system in a variety of ways. It has proven anti inflammatory properties.
3. **Ginger Essential Oil** The volatile oil of ginger was tested. Results suggest that it may be helpful in conditions, such as chronic inflammation and autoimmune disease.
4. **Lavender Essential Oil** This oil is widely used in aromatherapy because of it has a calming effect. It reduces inflammation, pain and muscle spasm.
5. **Bergamot Essential Oil.** It is a potent antioxidant. It helps relieve symptoms of stress, mild mood disorders and pain. It has neuro-protective effects.
