Nutrition Pure and Simple

A Distributor for Time Laboratories  products from nature’s lab.

Nutrition Pure and Simple, Time Labs and their clinic, Endobiogenic Integrative Medical Center in Pocatello, ID: Simplifying the complex issue of nutritional supplementation.

These are not your usual nutritional supplements. Technology developed by Annemarie Buhler, the founder and president of Time Laboratories, is used in these special formulas. She was instrumental in the development of the first true time-release process used for vitamins and minerals. Product development uses labor intensive processes, isolation techniques and testing to ensure availability to the body.

Many of the nutritional products that take advantage of this special technology are formulated by John Jones, MD, MPH. Rather than presenting complex formulas for a variety of sexes and ages, Dr. Jones has formulated Ultra-Vites. It is a combination of vitamins and minerals together in one basic multi that provides the optimal nutrients to meet the daily requirements for the body. The specific requirements are base on sound scientific research. My formula has recently been updated to supply the B Vitamins in their active bio available forms. (See formula details on page 16)

Our essential fatty acid formula, Ultra Omega-Linic, combines the benefits of GLA from Black Currant seed oil with Wild Alaskan Salmon oil. This unique formula is based on years of clinical experience, research and exciting recent studies.

“Real healthcare is preventive in focus and relies on diet, supplements, and lifestyle. Government approved disease-care, provided in alliance with the drug and surgical equipment manufacturers, will not keep us well”. Alliance for Natural Health, USA

Many people have turned to diet and other lifestyle modifications for the quality of life they desire. You should know that even if a person could or would eat a ‘perfect’ diet, biological diversity assures that each body has different nutritional needs. “In addition, the very young, the very old and the very ill may not be able to get enough of the nutrients they need from dietary intake.” A Quote from Dr Jones.

5HTP 50 Plus (Tranquility)  
VMTR50  100 Capsules

5HTP 100 Plus (Tranquility)  
VMTR  100 Capsules

5-hydroxytryptophan is an intermediate metabolite between L-tryptophan and serotonin. It has all the benefits of SSRI drugs (see warning below) without the adverse side effects. This product contains Passionflower, which is a calming herb for anxiety, and insomnia.

Each capsule contains: 50 mg or 100 mg 5-HTP (Hydroxytryptophan from Griffonia Seed) and 200 mg Passionflower herb extract 4:1. (Equivalent to 800 mg of whole herb).

Other Ingredients: Inositol, magnesium stearate, gelatin.

**Suggested Use**: 1 capsule morning and evening or as directed by a health professional.

**Caution**: 5HTP should not be used in combination with SSRI antidepressant medications, Carbidopa, Sumatriptan, Tramadol or Zolpidem.

African Prune  
VMPR-01  100 Capsules

African Prune contains three compounds that relieve the symptoms of benign prostatic hypertrophy such as frequency, urgency, getting up at night.

Each Capsule contains: 200 mg African Prune (Pygeum africanum) 4:1 Concentrate.

**Suggested Use**: 1 capsule 3 times per day or as directed by a health professional.

**Argiletz® French Green Illite Clay**  
VMAF-1  8 oz

Remineralizing Dietary Supplement. Green clays detoxify and restore mineral balance. Consider adding the Essential Oil Peppermint and use for Diarrhea and other signs of GI distress.

This fine clay is also used as a Cosmetic Treatment

**B-Complex**  
VMBC  100 Capsules

The dozen or so B vitamins are so meagerly supplied in the American diet that many Americans lack some of them. Sugar, alcohol and caffeine cause further deficiency problems. The need for B vitamins increases during infection or stress. Children and pregnant and lactating women need higher levels for normal growth. Most authorities agree that the B Vitamins work best if all are supplemented.

Each timed release capsule contains:

- Vitamin B1 ........................................ 25 mg
- Vitamin B2 ........................................ 25 mg
- Niacinamide ...................................... 100 mg
- Vitamin B6 ........................................ 25 mg
- Folic Acid ........................................ 400 ug
- Vitamin B12 ..................................... 100 ug
- Biotin ............................................ 150 ug
- Magnesium ....................................... 25 mg

Other ingredients: Nonpareil seeds, food glaze, microcrystalline cellulose, gelatin.

**Suggested Use**: One Capsule with breakfast or lunch, or as directed by a health professional.

**Statements in this catalog have not been evaluated by the FDA. The products are not intended to diagnose, treat, cure or prevent any disease.**

Bilberry
VMBB-01 100 Capsule
VMBB-02 270 Capsule

Bilberry has a long history of use in visual problems, particularly macular degeneration. It contains anthocyanosides that reduce the UVA induced oxidative stress and may delay cataract formation. It also contains phenolic compounds that are beneficial as antioxidants.

Each Capsule contains: 200 mg Bilberry (Vaccinium myrtillus) 6:1 Concentrate.

**Suggested Use:** 1 capsule 3 times per day or as directed by a health professional

---

**Bitamins**
Children’s Chewable
VMCB 120 Capsules

*Phyto-Aromatic Kid's Collection; Bitamins is a chewable Multi Vitamin & Mineral dietary supplement with Xylitol.*

Each 2 chewable tablets contains:
- Vitamin A: 3000 IU
- Vitamin D3: 400 IU
- Vitamin E: 30 IU
- Vitamin C: 80 mg
- Folate: 400 ug
- Vitamin B1: 1.5 mg
- Vitamin B2: 1.7 mg
- Niacin: 1.7 mg
- Vitamin B6: 2 mg
- Vitamin B12: 6 ug
- Biotin: 40 ug
- Pantothenic acid: 10 mg
- Calcium: 100 mg
- Iodine: 150 ug
- Magnesium: 10 mg
- Copper: 0.05 mg
- Zinc: 3 mg
- Manganese: 0.05 mg
- Potassium: 1 mg

Other ingredients: 378 mg Xylitol, Sorbitol, Stevia, Spirulina, natural mandarin & coconut flavors, magnesium stearate (vegetable)

**Suggested Use:** Children 4 years and older, chew 2 tablets daily; under 4 years, chew 1 tablet daily, or as directed.

---

Bladrease Capsules
VMEC4 100 Capsules

**Bladrease may be useful for cystitis and Urinary Tract Infections.**

Each capsule contains: 488 mg Proprietary blend. Fennel (Foeniculum dulce) herb extract, bilberry (Vaccinium myrtillus) fruit extract, witch hazel (Hamamelis virginiana) leaf extract, burdock (Arctium lappa) root extract.

Other ingredients: Magnesium stearate, gelatin.

**Suggested Use:**
- 2 caps 5 times per day for 5 days,
- 2 caps 4 times per day for 4 days,
- 2 caps 3 times per day for 10 days,
- 2 caps 2 times per day for 21 days.

---

**Calcium 280 and D**
VMCAD 150 Capsules

*Calcium and Vitamin D - because your body needs them. These two nutrients are so linked together in your body's metabolism that one isn't very useful if you don't have the other. They are co-dependent: Your body needs both; needs them in proportions that complement each other.*

Each tablet contains: 130 IU vitamin D3 and 280 mg Calcium (as calcium carbonate).

Other Ingredients: Magnesium stearate, food glaze,

**Suggested Use:** One tablet daily or as directed by a qualified health professional.

---

**Calcium Ascorbate Complex (Powdered Vitamin C)**
VMCAA 8 oz Size

It is easy to take large amounts of this highly available Calcium when it is dissolved in liquid and buffered.

Each teaspoon contains: 3600 mg Vitamin C and 450 mg Calcium (as calcium ascorbate).

**Suggested Use:** Mix 1 teaspoon with water or juice and drink first thing each morning, or as directed by a health professional.

---

*Statements in this catalog have not been evaluated by the FDA. The products are not intended to diagnose, treat, cure or prevent any disease.*

To Order: [www.NutritionPureAndSimple.com](http://www.NutritionPureAndSimple.com) - For more information please contact 1888 953 5553  Also visit [www.jjconsulting.net](http://www.jjconsulting.net)
Calcium D Chelate
VMCADC 120 Capsules

When Calcium is given as a dipeptide chelate (amino acid complex), it is absorbed as a dipeptide. It does not use the usual pathway for absorption, so other metals, (such as Magnesium), or the lack of hydrochloric acid, do not interfere with absorption. Our calcium amino acid complex, for instance, is up to two times more absorbable than calcium salts.

Each capsule contains 400 IU Vitamin D3 and 175 mg Calcium (amino acid complex)

**Suggested Use:** 1 capsule daily or as directed by a health professional.

Chaste Tree
VMCT-01 100 Capsules
VMCT-02 270 Capsules

Chaste Tree may be useful for the reduction of premenstrual and premenopausal symptoms. Reduction of breast tenderness and pressure, headaches, bloating and fatigue. Chaste tree has been used to stimulate breast milk production, and infertility. It may help progesterone/estrogen balance.

Each capsule contains: 200 mg Chaste Tree (Vitex agnus castus) 4:1 Concentrate

**Suggested Use:** 1 capsule 3 times per day or as directed by a health professional

Choline - Inositol Tablets
VMCI 100 Tablets

Each capsule contains: 250 mg Choline (Choline bitartrate) and 250 mg Inositol.

Other ingredients: Microcrystalline cellulose, stearic acid, magnesium stearate.

**Suggested Use:** One tablet daily or as directed by a health professional.

Cinnamon Toothpaste (with Monolaurin)
CMT5 5 oz

Why Choose Cinnamon Toothpaste for Your Family?

Whiten teeth. Protect against bacterial infections such as gingivitis, viral or fungal infections in the mouth. Remove tartar and whiten and polish teeth. Together all the ingredients tend to resolve gingivitis and promote a healthy mouth. The various oils, such as cinnamon, peppermint, and myrrh, leave one with a clean fresh breath. It increases the activity of neurophylls and helps control oral infections of candida.

Chaste Tree
VMCT-01 100 Capsules
VMCT-02 270 Capsules

Chaste Tree may be useful for the reduction of premenstrual and premenopausal symptoms. Reduction of breast tenderness and pressure, headaches, bloating and fatigue. Chaste tree has been used to stimulate breast milk production, and infertility. It may help progesterone/estrogen balance.

Each capsule contains: 200 mg Chaste Tree (Vitex agnus castus) 4:1 Concentrate

**Suggested Use:** 1 capsule 3 times per day or as directed by a health professional.

Choline - Inositol Tablets
VMCI 100 Tablets

Each capsule contains: 250 mg Choline (Choline bitartrate) and 250 mg Inositol.

Other ingredients: Microcrystalline cellulose, stearic acid, magnesium stearate.

**Suggested Use:** One tablet daily or as directed by a health professional.

Dermacalm Lotion with Monolaurin
SCDM-1 4 oz
SCDM-2 16 oz

Soothe and moisturize skin; help eczema. Benefit from Monolaurin, Amino Acids and Essential Oils.

Special Ingredients: In addition to Monolaurin, Rovisome Sensitive®, Sepicalm S®, Essential Oils, Amino Acids, and Shea butter

**Suggested Use:** Apply generously to affected areas after cleansing or bathing. Reapply as often as needed.

Check out the entire ‘suite’ of Dermacalm products:
Lotion, Intensive Night Cream, Shave Gel and Toner. Included in this Dermacalm starter pack: Lavender Plus cleanser.

Dermaclear Capsules
VMEC30 60 Capsules

Dermaclear may be useful for skin blemishes and Acne. For an inside-out benefit use with DermaClear Lotion.

Each capsule contains: 440 mg Proprietary blend. Artichoke (Cynara scolymus) globe extract, burdock (Arctium lappa) root extract, lady's mantle (Alchemilla vulgaris) herb extract, plantain (Plantago lanceolata) leaf extract, pansy (Viola tricolor) flower extract, essential oils of clary sage (Salvia sclarea) and rosemary (Rosmarinus officinalis), evening primrose (Oenanthera biennis) flower extract.

Other ingredients: Magnesium stearate, gelatin.

**Suggested use:** 2 capsules AM & PM or as directed by a health professional.

Statements in this catalog have not been evaluated by the FDA. The products are not intended to diagnose, treat, cure or prevent any disease.

To Order: www.NutritionPureAndSimple.com - For more information please contact 1888 953 5553 Also visit www.jjconsulting.net
Dermaclear Lotion
SCDC  1 oz Size

This lotion may be useful for skin blemishes and Acne, especially when used with Dermaclear Capsules for an inside-out response.

Suggested use: Cleanse face. Apply to problem areas morning and evening. Avoid eye area.

d-Ribose Powder
VMDR  8 oz Size

D-Ribose is a naturally occurring sugar used by the body to synthesize nucleotides, ATP and glycogen. Studies have shown that d-Ribose helps to restore energy and support muscle recovery.

Each 1.5 teaspoon contains: approximately 5 grams pure D-Ribose.

d-Ribose continued

Suggested Use: Mix 5 grams (approximately 1.5 teaspoons) into your food or beverage 1-4 times per day or as directed by a qualified health professional. For best results do not take d-Ribose with protein.

Enzymes Plus
VMEP  200 Capsules

Enzymes Plus may be useful for signs of gastric distress. The enzymes are coated - protected from stomach acid.

1st Phase (releases in the Stomach)
150 mg Proprietary Blend: Betaine Hcl, Glutamic Acid Hcl, Pepsin, Papain, Cellulase

2nd Phase (releases in the Duodenum)
150 mg Pancreatin
  Amylase >= 22,500 Units
  Protease => 22,500 Units
  Lipase >= 1,800 Units
10 mg Ox Bile Extract (enteric coated)
50 mg Bromelain 2400 GDU/g (enteric coated)

Suggested Use: 1 or 2 tablets with each meal or as directed by a health professional.

Essential Prenatal Complex
VMEPD  100 Capsules

Each tablet contains 18 mg Iron (amino acid chelate), 400 mcg Folate (folic acid), 100 mg Rubus Idaeus (Red raspberry) leaf.

Suggested Use: 1 capsule daily or as directed by your health care provider.

Fem-Ease
MVEC7  60 Capsules

Feminease may be useful for menopause symptoms.

Each capsule contains: 411 mg Proprietary blend: Sage (Salvia officinalis) herb extract, sarsaparilla (Smilax aspera) root extract, alfalfa (Medicago sativa herb extract, wild yam (Dioscorea villosa) root extract, evening primrose (Oenanthera biennis ) oil.

Other ingredients: Magnesium stearate, gelatin.

Suggested use: 2-3 capsules per day or as directed by a health professional.

GI-PRO
VMGI P  120 Capsules

This synergistic combination of herbal extracts and essential oils helps to soothe GI complaints while promoting healthy digestion.

Properties: anti-nausea, anti-inflammatory, digestive aid, antiflatulent, antidiarrhoeal, antispasmodic, analgesic, carminative, demulcent, antimicrobial, immunomodulatory

May be helpful for: nausea, gastritis, inflammatory bowel conditions, and other GI complaints

Each capsule contains a proprietary Blend: Zinger officinale (Ginger) Root Extract, Aloe barbadensis Leaf Juice Extract, Mentha piperita (Peppermint) Oil, Elettaria cardamomum (Cardamom) Seed Oil, Thymus satireoides (Wild Thyme) Oil, Matricaria chamomilla (Chamomile) Oil, French Green Illite Clay, Silica, Gelatin (Capsule).

Suggested Use: Take 1 capsule as needed with or without food. For chronic GI issues, take 1 capsule with each 3 meals. Consider the companion product French Green Clay powder.

Ginger
VMGR-1  100 Capsules
VMGR-2  270 Capsules

Ginger has been used for motion sickness. It increases motility of the GI tract and helps control morning sickness in pregnant ladies with no adverse effects on mother or baby.

Each Capsule contains: 200 mg Ginger (Zingiber officinale) 4:1 Concentrate, equivalent to 800 mg.

St Johnswort Warning
St Johnswort should not be used with any drugs unless drug/herb interactions are checked by a health care provider.

Spirulina Plus (Phyto Green Drink)
VMPG 225 grams

The Earthrise organic Spirulina in this product has a long history of being an outstanding source of Spirulina. As a completed protein with all of the essential amino acids, studies have shown therapeutic effects at very low concentration in the diet. The addition of lactobacillus acidophilus DDS-1, vegetable enzymes, essential oil of lemon and yucca has enhanced these qualities.

Spirulina contains the following phytonutrients: Phycocyanin, chlorophyll, Mixed Carotenoids, Polysaccharides, Sulfolipids, Gamma Linoleic Acid, SOD (Super Oxide Dismutase), Zeaxanthin, and the following naturally occurring amino acids: Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine, Alanine, Arginine, Aspartic Acid, Cystine, Glutamic Acid, Glycine, Histidine, Proline, Serine, Tyrosine.

Suggested Use: Add a tablespoon to your selected beverage in a shaker cup or blender. Mix well and drink immediately.

Each tablespoon of Spirulina Plus contains:
- Potassium .................................................. 99 mg
- Vitamin A (as Beta Carotene) ............... 6900 IU
- Magnesium (amino acid chelate) ............. 100 mg

Earthrise organic Spirulina ............... 3 grams
Yucca Shidigera root extract 4:1 ............. 100 mg
L. Acidophilus DDS-1 ......................... 2 billion CFU

Proprietary blend: Inulin, vegetable enzyme blend (amylase, protease, lipase, cellulase, lactase), essential oil of lemon, natural citrus flavor, carrageenan.

Serenity (St Johnswort Plus Valerian Root)
VMSY-1 100 Capsules
VMSY-2 270 Capsules

St. Johnswort has similar efficacy to standard anti depressant treatment. The addition of Valerian root can improve sleep quality and reduce insomnia.

Each capsule contains: 240 mg St. Johnswort (Hypericum perforatum) leaf and flower extract and 240 mg Valerian (valeriana officinalis) root extract 4:1. (Equivalent to 960 mg whole herb).

Other ingredients: Magnesium stearate, gelatin.

Suggested Use: Take 1-2 capsules before bed or as directed by a qualified health professional.

St. Johnswort
VMSJW-1 100 Capsules
VMSJW-2 270 Capsules

A review of 29 clinical trials by Cochrane collaboration concluded that St. Johnswort had similar efficacy to standard anti depressant treatment. The rate of side effects was lower than SSRI and 5 times lower than tricyclic anti depressants.

Each capsule contains: 500 mg Hypericum perforatum.

Suggested Use: 1 or 2 capsules 2 or 3 times per day, or as directed by a healthcare professional.

The Pro's Edge
VMPE 60 Capsules

Your edge for focus, concentration and reduced anxiety.

Pump Up Performance

Each 2 capsules contain
- DMAE Bitartrate (100 mg Dimethylamin-oethanol) ..... 270 mg
- Rhodiola rosea root extract (4:1) ......... 200 mg
- Ginkgo biloba leaf extract (4:1) .......... 100 mg
- Eleutherococcus senticosus (4:1) ......... 200 mg
- Passiflora incarnata leaf extract (4:1) .... 100 mg
- Thiamin (vitamin B1) ....................... 25 mg
- Riboflavin (vitamin B2) ............... 25 mg
- Niacin (niacinamide) ................. 40 mg
- Vitamin B6 (pyridoxine Hcl) ............. 25 mg
- Folate (Folic Acid) ....................... 400 mg
- Vitamin B12 (cyanocobalamin) ....... 150 mcg
- Pantothenic Acid (d calcium pantothenate) .... 200 mg

Suggested Use: Take 2 capsules each morning and an additional dose as needed, or as directed.
Ultra 4x6 Probiotic
VMU4x6  100 Capsules

Four Billion potency and six Probiotic strains including L.acidophilus DDS-1. This high potency product provides a balanced spectrum of beneficial bacteria found in human intestinal tracts.

Guaranteed potencies per capsule: (CFU):
Lactobacillus acidophilus DDS-1 .............. 2 billion
Bifidobacterium bifidum .................. 1.2 billion
Bifidobacterium longum .................. 200 million
Streptococcus thermophilus .............. 200 million
Lactobacillus bulgaricus ............... 200 million
Lactobacillus paracasei ............... 200 million

Other Ingredients: Inulin (from Chicory Root), Magnesium Stearate (Vegetable Source), Gelatin (capsule).

Suggested Use: 1-2 capsules between meals 1-2 times per day or as directed by a health professional.

Ultra Adrenal Complex
VMUAC  60 Capsules
VMUAC-2  180 Capsules

Now with Active B Vitamins. All of the vitamins in this formula are essential for normal adrenal and central nervous system function. The four herbs have both similar and different actions and are synergistic when used together.

Each two capsules contain: 200 mg Rhodiola rosea root extract 4:1*, Eleutherococcus senticosus root extract 4:1*, 200 mg Panax quinquefolium (Ginseng) root extract 4:1*, 200 mg Withania somnifera (Ashwagandha) extract 4:1*.

*200 mg of a 4:1 extract concentrate is equal to 800 mg of whole herb.

Plus:
Thiamin (Vitamin B1) ................. 10 mg
B2 (Riboflavin 5-Phosphate) ............ 10 mg
Niacin (as Niacinamide) ........ 50 mg
B6 (Pyridoxine 5-Phosphate) .......... 10 mg
Folate (l-methylfolate) ........... 400 ug
B12 (methyl cobalamin) .......... 50 ug
Pantothenic Acid .................. 400 mg (as D Calcium Pantothenate).

Other Ingredients: Choline Bitartrate, Magnesium Stearate, gelatin (capsule).

Suggested Use: 2 capsules each morning or as directed by a health professional.

Ultra Chew C 350
VMUCC  120 Tablets

The stomach-friendly Vitamin C contained in this product is specially coated for stability. Rutin is included to enhance the efficacy and absorption. Xylitol has been shown to improve dental health.

Each tablet contains 350 mg Vitamin C (Ascorbic Acid, Coated), 50 mg Rutin, 350 mg Xylitol.

Other ingredients: Sorbitol, Stevia Rebaudiana Extract, Natural Mandarin & Coconut Flavors, Magnesium Stearate.

Suggested Use: Chew 1 or more tablets /day, or as directed.

Ultra C 1000
VMVC  1000 120 tablets

This special coated Vitamin C is stomach-friendly. The coating improves stability and taste. Rutin complements the action of Vitamin C.

Each uncoated tablet contains 1000 mg vitamin C (ascorbic acid) and 100 mg Rutin.

**Ultra Vites*** Now with Active Methyl B Vitamins

VMUV  120 Capsules

Physician & Nutritionist formulated!

Ultra-Vites is an optimal, complementary blend of essential nutrients that supplies the most important needs of adults, teenagers, and aging adults (male and female).

Each 2 Ultra-Vites capsules contain:

- Potassium (citrate) ................................. 20 mg
- Vitamin A (acetate) ................................. 4500 IU
- Vitamin C (ascorbic acid) ....................... 100 mg
- Calcium (rice chelate) ............................. 50 mg
- Vitamin D3 (cholecalciferol) .................... 1000 IU
- Vitamin E (acetate) ................................. 40 IU
- Vitamin B1 (thiamine) .............................. 25 mg
- Vitamin B2 (ribo-5-Phos) .......................... 25 mg
- Niacin (niacinamide) ............................... 40 mg
- Vitamin B6 (ribo-5-Phos) .......................... 25 mg
- Folic Acid (l-methylfolate) ....................... 800 mcg
- Vitamin B12 (methylcobalamin) ............... 1000 mcg
- Biotin ................................................. 500 mcg
- Pantothenic (pantothenate) ...................... 75 mg
- Iodine ................................................. 225 mcg
- Magnesium (chelate) ............................. 150 mg
- Zinc (chelate) ....................................... 10 mg
- Copper (chelate) ................................... 1 mg
- Manganese (chelate) ............................... 2 mg
- Chromium (chelate) ............................... 50 mcg
- Selenium (seleno methionine) ................. 50 mcg
- Molybdenum (chelate) ............................ 20 mg
- Boron (chelate) ..................................... 5 mg
- Citrus Bioflavonoids ............................... 50 mg
- Lycopene ............................................. 2.5 mg

Other ingredients: Trace Mineral Complex (from sea water, L-leucine, cellulose (capsule).

**Suggested Use**: 2 capsules per day

Vitamin D3 2000
VMD32 100 Capsules

Each capsule contains: 2,000 IU Vitamin D3 (cholecalciferol).

Other ingredients: Calcium carbonate, magnesium stearate, gelatin.

Suggested Use: One capsule daily or as directed by a health professional.

Vitamin D3 5000
VMD3 100 Capsules

Each capsule contains: 5,000 IU Vitamin D3 (cholecalciferol).

Other ingredients: Calcium carbonate, magnesium stearate, gelatin.

Suggested Use: One capsule daily or as directed by a health professional.

Vitamin E 400
VME4 100 Softgels

Vitamin E is one of the four (4) major antioxidants that protect phospholipids. The others are Alpha Lipoic Acid, Coenzyme Q0 and Vitamin C.

Each soft gel capsule contains: 400 IU vitamin E (natural mixed tocopherols).

Suggested Use: One capsule daily or as directed by a health professional.

Yucca
VMYU 100 Capsules

Yucca contains polyphenolics and other stilbenes which have anti inflammatory activity. It has been useful in arthritis and other joint pain. It lowers total cholesterol, LDL, and normalizes elevated triglycerides.

Each capsule contains: Yucca (Yucca Schidigera) 400 mg. 4:1 Concentrate (equivalent to 1600 mg whole herb)

Suggested Use: 1-2 capsules 2-3 times per day or as directed by a healthcare professional

Zinc 30 Plus
VMZ30 90 Capsules

NEW: A great formula for Thyroid and Immune support.

Each capsule contains 30 mg Zinc (as amino acid chelate), 100 mg Kelp (Laminara digitata) powder, Goji (Lycium barbarum) berry extract, 100 mg Ginger (Zingiber officinale) root extract.

Other Ingredients: Magnesium (amino acid chelate), Gelatin (capsule).

Suggested Use: Take 1 capsule daily or as directed by a qualified health professional.

Zinc Lozenges NEW
VMCZL 60 Lozenges

1000 IU Vitamin A, 150 mg Vitamin C, 12 mg Zinc. Other Ingredients: furctose, sorbitol, bee pollen, propolis, natural flavor, mag stearate, goldenSeal & Slippery Elm
Ultra Omega-Linic

This product contains LC-PUFA (Preformed) Long chain Polyunsaturated fatty acids formulated by John W Jones, MD, MPH

IMPORTANT REASONS TO USE Ultra Omega-Linic - made with wild Alaska Salmon Oil and Black Currant seed oil.

Ultra Omega-Linic contains the following preformed fatty acids:

- high EPA to increase function and control inflammation
- high SDA to further increase levels of EPA
- high GLA to produce additional anti-inflammatory prostaglandins
- high DHA to support neurological structure

WHAT IS Ultra Omaga-Linic? Fish Oil plus GLA

Ultra Omega-Linic is a blend of essential Long Chain Poly-Unsaturated Fatty Acids (LC-PUFA). They are essential because Omega 3 and Omega 6 fatty acids cannot be made by the human body. It is extremely important that they be consumed because of their vital role in the production of neural tissue in the form of phospholipids and their role in nerve conduction in the form of free fatty acids. The LC-PUFA are the main components of inflammation and its regulation. Both omega 6 and omega 3 series must be in the body in adequate amounts in order to modulate the inflammatory process.

I have used a mixture of the omega 3 and omega 6 series LC-PUFA since 1984 and it has helped many health problems. I have formulated Ultra Omega-Linic because studies indicate that a higher concentration of Eicosapentaenoic acid (EPA) produces even better clinical results. EPA is the PUFA that deals primarily with function. Docosahexaenoic Acid (DHA) deals with structure. EPA cannot efficiently be elongated to DHA, but DHA can be efficiently converted to EPA. There are high levels of both EPA and DHA in Ultra Omega-Linic.

In addition Ultra Omega-Linic contains high levels of Stearidonic acid (SDA), which also converts quickly and efficiently to EPA in the body. Flax Seed Oil, which contains the parent ALA, but no PUFA, has been used for the source of the essential omega 3. However, ALA is poorly converted to PUFA, and when supplemented, even in large amounts will not raise the level of EPA in Red Blood Cells. The only way to increase DHA in red blood cells is to supplement with preformed DHA. Vegetarians miss out on the many benefits of EPA and DHA when they omit these essential fatty acids. These preformed prostaglandin precursors (GLA, SDA, EPA and DHA) have been found to be more effective than the use of any one of them by itself.

DESCRIPTION:

Ultra Omega-Linic contains Black Currant seed oil, Wild Alaskan Salmon oil, Fish Oil concentrate and Vitamin E in softgels. Each capsule supplies 114 mg Eicosapentaenoic Acid (EPA), 65 mg Docosahexaenoic Acid (DHA), and 84 mg of Gamma Linolenic Acid (GLA) which contains 15 mg Stearidonic Acid (SDA). Each capsule also contains 10 IU Vitamin E as mixed tocopherols.

The salmon oil is extracted from sustainably harvested wild salmon found in the pristine deep waters of Alaska. The Fish Oil concentrate, also from deep water fish, is added to achieve higher levels of EPA and DHA than is possible from Wild Alaska Salmon. This product is analyzed for contaminants such as heavy metals and organic pollutants, and is guaranteed to exceed federal safety standards. Neither the Salmon nor the Fish Oil concentrate contains any protein.

WHY DO YOU NEED Ultra Omega-Linic?:

In the typical Western diet, these essential fatty acids are missing, inadequately supplied, or are in a form unusable to the body; unusable because they are in the trans form, or are ingested as the parent essential oils which are very poorly converted to PUFA. (EPA, DHA, SDA or GLA).

WHAT DOES Ultra Omega-Linic DO?:

Fish oil, which is rich in preformed EPA and DHA, combined with Black Currant seed oil rich in preformed
GLA, has been found to be very useful in reducing inflammation. This makes a great deal of sense, since EPA, DHA and GLA are precursors of the prostaglandins, and very effectively modify the cyclooxygenase, lipoxygenase and epoxygenase pathways. GLA produces PG1 series prostaglandins that are anti inflammatory; EPA and DHA are precursors of the PG3 series. Arachidonic Acid, which is overabundant in our Western diet, is the precursor of the PG2 prostaglandins, which are highly inflammatory. All three of these pathways (PG 1,2 and 3) use the same enzymes, but the PG3 series uses them preferentially. This further reduces the production of PG2 series. The epoxygenase pathway, which is controlled by the p450 enzymes, is also modified by the substitution of EPA, DHA and GLA for Arachidonic Acid.

Supplementation of both fish oil and black currant seed oil simultaneously (as they occur in Ultra Omega-Linic) has been found to be more effective than the use of either one by itself. This combination favorably impacts any kind of inflammatory process. Other benefits: HDL is increased, thereby improving the LDL/HDL ratio; Platelet aggregation is decreased; Plasma triglycerides are reduced by an average of 30 percent or more.

The essential fatty acids in Ultra Omega-Linic have been useful in arthritis of any kind, tendinitis, bursitis, PMS, menstrual cramps, chronic fatigue syndrome, fibromyalgia, bowel inflammatory diseases, and both general and cardiac atherosclerosis. It is extremely useful in preventing the complications of diabetes; vascular, ophthalmic and neurological. It has been linked to reductions in cancer. It should be used during pregnancy and lactation to assure an adequate supply of EFAs, especially DHA, for brain and retinal development of the infant and to prevent or minimize post partum depression caused by structural brain loss in the mother.

IMPORTANT NOTES ON DEPRESSION

Very high EPA supplementation, along with the supplementation of the phospholipid antioxidants Vitamins E and C, alpha lipoic acid and Coenzyme Q 10, has been used successfully to help manage schizophrenia, bipolar and severe depression. Early studies suggest help with senile dementia.

I should point out that to ensure maximum benefit from EFA supplementation, make sure that all of the many nutrients that are required for proper metabolism of the EFAs are present. Use a multi like Ultra-Vites or Ultra-Preventive (with Spirulina) that meets or exceeds the RDIs. (See my Basic Protocol)

NOTE:
Fish allergies are typically triggered by protein molecules. Since Ultra Omega-Linic contains no fish protein it is unlikely to trigger an allergic reaction.

SUGGESTED USE:
As a dietary supplement, one to six softgels daily. For inflammatory conditions use eight to twelve softgels daily. increase or decrease quantity as indicated by symptoms.

For Neurological symptoms start with eight to twelve daily.

UNDERSTANDING ESSENTIAL FATTY ACIDS
("Essential" means your body has to have it and can't make it. "PG" means Prostaglandin)
Modified from Leo Galland

**PG1**
- Linoleic Acid (LA)
  - c18:2w6
  - Parent Oil:
  - corn, soy, sunflower safflower
  - \( \Delta 6 \) desaturase

**GLA**
- Gamma Linolenic Acid (GLA) c18:3w6
- Source: seed oil of Black Currant
  - Vitamin B6
  - Borage, Evening Primrose
  - Vit B6
- \( \Delta 5 \) desaturase (15% in humans)

**DGLA**
- Dihomo Gamma Linolenic Acid (DGLA) c20:3w6
- Source: Human breast milk
  - Needs:
  - Zinc, Iron
  - Selenium
  - Biotin
  - Vit C, Vit E

**PG 2**
- Arachidonic Acid (AA)
  - c20:4w6
  - Sources:
  - Meat, milk, egg
  - Shrimp, seaweed
  - \( \Delta 4 \) desaturase (slow)

**PG 3 PATHWAY**
- Alpha Linolenic Acid (ALA)
  - C18:3w3
  - Parent Oil:
  - Flax seed (linseed)
  - walnut, chestnut, soy
  - \( \Delta 6 \) desaturase

**SDA**
- Stearidonic Acid c20:5w3

**DELTA 6 Enzyme Blocked by:**
- Alcohol
- Saturated fats
- "Trans" or hydrogenated fats
- Deficiencies of B3, B6 and Zinc
- Some Chemicals, Some Viruses

**Enzymes not as effective:**
- The very young (perinatal)
- Allergic families
- Diabetics
- Advancing age (>40)

**Enzymes have a preference for PG3**

**PG 3**
- Eicosapentaenoic Acid (EPA) c20:5w3
  - SDAs
  - Weak Long Chain Poly Unsaturated Fatty Acids
  - \( \Delta 5 \) desaturase

**PG 1**
- Anti inflammatory
  - A
  - PG
  - Lipoxygenase
  - Cyclooxygenase

**PG 2**
- Less Inflammatory than PG2
  - A, B

**Highly Inflammatory**

Deficient PG 1 in:
- Asthma
- elevated cholesterol
- eczema
- hyperactivity
- hypertension
- pre-menstrual syndrome
- thrombosis
- vascular spasm

Deficient PG 2 in:
- angina
- Arthritis
- Asthma
- inflammatory Bowel disease
- diabetes
- depression
- cancer
- food allergy
- menstrual cramps
- Multiple Sclerosis
- thrombosis

Deficient PG 3 in:
- acne
- dandruff
- elevated triglycerides
- learning impairment
- auto-immune disease
- thrombosis
- inflammatory Bowel Disease
- Bipolar depression (*EPA)
- depression (*EPA)
- Schizophrenia (*EPA)
- ADHD (*DHA)
- Schizophrenia
- Cystic Fibrosis (*DHA)

*Use high levels
Note: A=Steroids block here, B=NSAIDS block here, Modulation is better than blocking

New information!

- Deficient PG 1 in:
  - Asthma
  - elevated cholesterol
  - eczema
  - hyperactivity
  - hypertension
  - pre-menstrual syndrome
  - thrombosis

Note: Special Formula C does not contain Zinc, Selenium or Vitamin B12

* no iron in Ultra Preventive Multi Vitamin-Mineral or Ultra-Vites

These broad spectrum, multiple vitamin and mineral formulas are specially manufactured using microencapsulation, enteric coating, and isolation techniques which protect the nutrients and present them to the body so that absorption and utilization will be optimal. When iron is in the formula it is protected from oxidation by the vitamin C that is also present in the formula.

IMPORTANT FORMULA NOTES:

- Vitamin A at this level is safe for women who are or might become pregnant.
- 4000 IU Vitamin D is necessary because of extremely common deficiency of D.
- 800 mcg Folic Acid because it is essential for neurologic function and is important before and during pregnancy.
- 1000 mcg Vitamin B12 is used because high levels of folic acid can mask B12 deficiency.
- 2.5 mg Lycopene (the parent substance from which all natural carotenoid pigments are derived)
- 5 mg Boron is included because of its function in the prevention of osteoporosis.
- The chelated form makes our minerals much easier for the body to absorb and use them...

NUTRITIONAL REQUIREMENTS:
Studies have shown that in order to meet the minimum daily requirements, one must consume at least 1100 calories of nutrient dense foods. None of these calories can come from "naked calories" such as sugar. This means that a patient on a 1000 calorie diet cannot meet the minimum daily requirements, much less the optimal levels, without supplementation. Ultra-Vites and Ultra Preventive are formulated so as to provide daily supplements which exceed the RDIs.

Two nationwide food consumption studies conducted by the USDA found that approximately 60% of the individuals surveyed were consuming only 70% of the daily minimum requirements of six essential nutrients. Those surveyed were people who made an effort to eat (and thought they were eating) a balanced diet. The nutrients are: vitamin B6, folacin, zinc, copper, calcium and magnesium. With these facts in mind, it is not likely that anyone is consuming an optimal supply of nutrients... without supplementation.

In addition, Iron deficiency has long been a marker for the nutritional status of a population. Much attention has been given to iron replacement. However, too little attention has been given to iron excess and the damage it can cause. Current data suggest that iron supplementation should be limited to patients with iron deficiency anemia, a few women, some children, and blood donors at high risk for anemia. If the multi of choice is Ultra-Vites and iron is indicated, consider Iron Plus, otherwise consider Ultra Preventive Multi Vitamin-Mineral Plus Iron.

SUGGESTED USE:
Ultra-Vites: Two capsules per day or as directed by a health professional.
Ultra Preventive Multi Vitamin-Mineral: Four Capsules per day or as directed by a health professional.
Ultra Preventive Multi Vitamin-Mineral Plus Iron: Four Capsules per day or as directed by a health professional.
Ultra Preventive Multi Vitamin Mineral Special Formula C: Four Capsules /day or as directed by a health professional.

HOW THEY ARE SUPPLIED:
VMUV Ultra-Vites Bottles of 120 capsules
VMUPC Ultra Preventive Multi Vitamin-Mineral Bottles of 120 capsules
VMUPI Ultra Preventive Multi Vitamin-Mineral Plus Iron Bottles of 120 capsules
VMUPSC Ultra Preventive MV Special Formula C Bottles of 120 capsules

Many people are interested in maintaining their health - they focus on nutritional and herbal supplements. If you have investigated the market, you know it is not easy to determine which nutritional supplements your body needs. How does one choose from the hundreds of products on the market, you might ask? This is an important issue because it is hard to find supplements that are well tolerated and which produce noticeable results in a relatively short period of time.

"Natural" is a commonly misunderstood term which is often used. Many people believe the term "Natural" describes a completely natural product: one that is derived from a plant or animal with no modification by a manufacturer. But those who manufacturer package, process and standardize products. By definition, these products are "man-made". In addition, if higher levels of nutrients are required, manufacturers must modify the "natural" base product. Example: 400 mcg folic acid is needed to prevent neural tube defects.

Individual nutrients do not occur “naturally” in nature, and they do not occur in the high levels that may be needed in a nutritional supplement. For instance, Rose hips contains only 1% to 2% vitamin C. This means that 500 mg of rose hips vitamin C would be the size of a baseball. In addition, high levels of Vitamin B complex do not occur “Naturally”. Another important fact: the Minimum Daily Requirements (MDR) are based on population studies of levels of nutrients to prevent deficiency symptoms. They make no claim to be optimum levels for biological function.

Dr. Jones has practiced medicine since 1958. He practiced aviation medicine in the US Air Force, followed by a lively practice in otolaryngology. He became interested in Clinical Ecology in the early 1980s. From the mid 1990’s to 2009 he was the medical director of The Key Company. He was the Medical Director of Occupational Medicine at Portneuf Medical Center in Pocatello, Idaho. His practice in Coeur d’Alene, ID, **Nutrition and Pain Relief** involved the use of nutrition and Prolozone therapy for pain. He is now retired from the active practice of Medicine.

For more information on his nutritional recommendations visit: www.jjjconsulting.net. Dr Jones is presently Nutritional Consultant for Nutrition Pure And Simple.

He has written information on the use of nutritional supplements to support normal living and healthy aging. There is recent new information on supplements that have been shown to be useful in age related eye disease (ARED) He is involved in product design and development, and is available for free consultations with doctors on nutritional and medical issues.

For information regarding protocols and nutritional supplementation and therapy, visit [www.jjconsulting.net](http://www.jjconsulting.net)
TIME LABORATORIES

Since 1972, Time Laboratories has been a leading manufacturer of nutritional supplements, specially formulated herbal compounds, and Phyto-Aromatic products, supplying doctors, chiropractors, integrative health care professionals, retailers and the public. Our Phyto-Aromatic Collections include anti-aging Skin & Body Care, Aromatherapy Massage Treatments, a Phyto-Aromatic Bath Collection, the Phyto-Aromatic Kid’s Collection for infants and children, as well as specialty and gift products.

The company’s founder and president, Annemarie Buhler, is an innovative and highly respected formulator who brings more than thirty years of education and expertise in phytotherapy from Europe to the United States. Mrs. Buhler was instrumental in the development of the first true time-release process used for vitamins and minerals. Known internationally for her skill and dedication to phyto-aromatherapy, Mrs. Buhler was selected in 1993 as the U.S. delegate to the International Conference for Phytotherapy and Aromatherapy in Tunisia.

Annemarie’s Granddaughter, Annette Davis, is a Certified Nutritionist who has been with Time Laboratories since 1989. She is available by phone to assist customers Monday- Friday mornings, or you can contact her by e-mail: annette@timelabs.com

Complete descriptions and pricing is available at our online web store - www.NutritionPureAndSimple.com

Windrose Aromatics, our authentic aromatherapy line, offers a wide selection of Pure and Genuine Essential Oils, expertly blended pure Essential Oil Combinations, and features our exclusive Ultra Jet System Diffusors.

There are Mystic fragrances and Synergies, as well as Floral Waters, Natural Base Products and Pure Carrier Oils.

Our commitment to authentic aromatherapy assures you of high quality products you can purchase with confidence.

Perhaps not as well know are the Salon & Spa skin care products. BodySpa offers items for Bath & Body, Lotion and Balms, and Mineral Bath Crystals. The Facial Care line is really impressive with Cleansers, Toners, and Eye Cremes. It includes a group of products for most skin types (Radiance), a group for problem and imbalanced skin types (Restore), a group for depleted and aging skin (Renewal) and collection starters for each of these skin types.

Then there is a suite of shaving products for him - HiS. The suite includes a Gel, an After Shave and a Lotion.

And you really have to check out the Phyto-Aromatic Kid’s Collection with special products for Baby, Kids and everyone with sensitive skin.

Another one that is often overlooked is Sun & Sport. It includes FastAide, Muscle and Joint Relief and Phyto-Aromatic Concentrates.
