

PhytoFlex may provide pain relief for the joints

Glucosamine Sulfate, a proteoglycan, has anti inflammatory and immuno regulating effect that some have found to be effective in the pain relief of Arthritis.

MSM, or methylsulfonylmethane, provides major pain relief through the following actions:

- The inhibition of pain impulses along nerve fibers
- The increase of blood supply
- It softens scar tissue
- It reduces inflammation
- It reduces muscle spasm
- It relieves allergy symptoms

Yucca has an anti inflammatory action by regulation of the prostaglandin pathways. it is quite effective in the relief of pain.
